### **DETAILED ACTION**

This action is in response to amendment filed 3/5/2007. Claims 11-13, 16, 17, and 19 are pending.

#### ***Allowable Subject Matter***

Claims 11-13, 16, 17, and 19 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 11-13, 16, 17, and 19 are neither anticipated nor made obvious by the prior art of record.

In regard to claims 11 and 16, the prior art of record fails to disclose a process and device for determining the alliation percentage of a galvanized strip in-line during a feed of the product during manufacturing having a measuring head having a light receiving and light emitting optical fiber with the free ends of the fibers stripped, wherein the optical fibers are parallel to each other and perpendicular to the surface of a product, wherein the measuring head includes an additional optical fiber connected to a specific sensor and having a free end part of which is oriented obliquely in relation to the free end portion of the light emitting optical fiber at an angle between 10 and 30 degrees.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
